

Rosemarie L Thieme
1001 E Sheldon St.
Prescott, AZ 86301

To whom it may concern:

I have overseen Sherryl Hoyt's clinical experiences for the medical-surgical portion of her second semester as well as functioned as her classroom instructor for the acute-care medical-surgical content.

Ms.Hoyt has strong critical thinking skills and applies them proficiently in the classroom as well as the clinical areas. Compared to her peers, she functions at a high level. Ms.Hoyt will be a positive asset to at your facility. Ms.Hoyt never hesitated to jump in and help with activities and duties as assigned as well as seeking out additional learning opportunities.

I highly recommend her to the position and believe she is a qualified candidate. If you have any questions, please do not hesitate to contact me.
